MARIBOR STUDEN'S FAILING ... Ljubljana, Slovenski Porocevalec, 10 Feb 51

A recent study of elementary- and secondary-school education in Maribor showed that the grades of elementary-school students are much better now than in previous years, but that more gymnasium students are failing now than ever before. Of 5,364 pupils in the four grades of elementary school, 83 percent passed at the end of the first semester. City elementary schools showed better results than country elementary schools.

This year, Maribor gymnasiums had an enrollment of 2,841 students, of whom only 1,551 passed at the end of the first semester. The poorest results were recorded in the first and second classes of the gymnasiums. The 7-year schools, which are attached to lower gymnasiums, have some students who attend classes only to fulfill the 8-year schooling requirement. The eighth class of the Maribor gymnasiums, which have a total of 100 prospective graduates, has also recorded poor results.
